| Image | Breed | Description |
|-------|------------------|---|
| | Abyssinian Cat | Abyssinians are highly intelligent and intensely inquisitive. They love to investigate and will leave no nook or cranny unexplored. They're sometimes referred to as "Aby-grabbers" because they tend to take things that grab their interest. The playful Aby loves to jump and climb. Keep a variety of toys on hand to keep her occupied, including puzzle toys that challenge her intelligence. |
| | American Bobtail | The American Bobtail is an athletic breed that looks like a bobtailed wildcat and has many dog-like tendencies. |
| | Burmese Cat | The Burmese thrives on companionship with her humans and other cats. Like her Siamese ancestors, she enjoys conversation, but has a much softer, sweeter voice. |

favorite breed of cats !!! This breed is an affectionate and easy to get along with. These cats are
shorthairs, and they come in several colors (white, black, chocolate, lilac, etc.). The Scottish
Folds have a life span of 11-14 years. Although, due to the fact that their ears are folded (which
isn't rly normal) this breed requires more medical attention than other breeds. </td>

<td>Ragdolls</td>
<td style="text-align: left">.○‿ Ragdoll is another one of my

favorites!!! Ragdolls have longcoats which means that grooming/combing should be done more often. Their coat requires lots of attention. This breed is the curious, active cat. These breeds are great for first time cat owners. </td>

<tr>

<td>Bengal</td>
<td style="text-align: left">.○‿ These cats have rlly beautiful

coats!! They have prints similar to those of a tiger, cheetah, or leopard. These cats are very active and love fun !! These cats are considered medium-large in size. </td>

<tr>

<td></td>
<td>Munchkin</td>
<td style="text-align: left">.○‿ Munchkins are energetic and

loving ! This breed is among the "dwarf breeds". This is because of their vv cute short legs !K!K!
Similar to the Scottish Fold, their legs were of genetic mutation. </td>
